

BUILDING DROUGHT RESISTANT HERDS AND ROBUST PASTURES

WITH

Kit Pharo
Pharo cattle company

Wednesday 4th March
9.00am to 12.30pm

OUR PHILOSOPHY

Optimum size is much more profitable than maximum size. Pounds-per-acre determines profit, not pounds-per-animal. In fact, profit is the only thing we want to maximize!

DANTHONIA, GWYDIR HWY ELSMORE

SPEAKERS AND TOPICS:

KIT PHARO PHARO CATTLE COMPANY

- Building resilience in your herd
- The possibilities in building drought resistant herds
- Profit per HA v's Profit per animal

GEOFF BASSETT - FARM MOJO
